As part of our ongoing efforts to enhance the patient experience at HSS, the Department of Radiology and Imaging in collaboration with your physician has begun using SeeMyRadiology in order to provide a confidential and convenient method of sharing radiologic files. Following are instructions on using the SeeMyRadiology web site.

Please be advised the HSS (SeeMyRadiology) cloud provides temporary storage of your images while you are undergoing treatment at the Hospital. Permanent retention of your records, as determined by law, is the responsibility of the originating site where your images were taken.

1. You will receive an email containing your user name and password. Your user name will be your full email address.

2. Your password will be emailed and shown on the Patient CD Upload page.

3. Click here to launch SeeMyRadiology web site.

4. Enter user name (your full email address).

5. Enter your password.

6. Click Launch Upload Tool.

For assistance, please call 888-883-4544
Upon completion of form, your study or studies will be available for the Physician Office to review.

1. Select the study or studies checkbox.

2. Click on Start Upload.

3. Select your CD-ROM drive from the drop-down list and click Next.

Your computer will scan the CD for images.

4. Your computer will scan the CD for images (this may take a couple of minutes depending on the number of studies on the CD).

5. Upon completion of form, your study or studies will be available for the Physician Office to review.
