LOCATION
Hospital for Special Surgery | New York City

ACCREDITATION
This activity has been approved for physical therapy CEUs.

SPONSORED BY
Hospital for Special Surgery Office of Continuing Medical Education and Department of Rehabilitation
participants will:

By the conclusion of the splinting workshop, learning objectives and enhance their current splinting skills. No prior treatment of the upper extremity and want to develop occupational therapist assistants who specialize in the development of CME content. An individual has a relevant financial relationship if he or she has a financial relationship in any amount occurring in the last 12 months with a commercial interest whose products or services are discussed in the CME activity content over which the individual has control.

It is the policy of Hospital for Special Surgery to request all financial relationships that Activity Directors, planning committee members, planners, authors and staff have with commercial interests, but to disclose to the activity audience only the relevant financial relationships.

SPECIAL NEEDS
Hospital for Special Surgery is accessible for individuals with disabilities or special needs. Participants with special needs are requested to contact the Office of Continuing Medical Education at 212.606.1812.

REGISTRATION
Registration fee includes breakfast and lunch, splint material for all splints covered in the workshop, and a copy of Smart Design: The Art of Splinting® splint fabrication manual. The Smart Design: The Art of Splinting® manual contains patterns, color photographs of completed splints and step-by-step instructions for over 20 custom-made splints (including the six splints covered in the workshop). Space is limited to 22 participants and workshops will be filled on a first-come, first-served basis.

LOCATION
Hospital for Special Surgery
Hand Therapy Center, 2W-200
535 East 70th Street, New York City

OVERVIEW
The hand therapy staff at Hospital for Special Surgery believes that splinting is an art and that practice makes perfect. Hands-on experience is critical when learning basic and advanced splinting techniques. The hand therapy staff invites you to improve your current splinting abilities while participating in our structured and guided splinting workshop. We will provide the opportunity to create a variety of commonly prescribed splints during our one-day workshop. Competency in the fabrication of these splints is invaluable for therapists who treat the upper extremity and manage common elbow, wrist and hand diagnoses. Three types of thermoplastic materials will be used and their properties discussed. Workshop space will be limited to ensure an intimate learning environment.

TARGET AUDIENCE
This activity is targeted to physical and occupational therapists, physical therapy assistants and certified occupational therapist assistants who specialize in the treatment of the upper extremity and want to develop and enhance their current splinting skills. No prior splinting experience is needed to participate.

LEARNING OBJECTIVES
By the conclusion of the splinting workshop, participants will:

- Demonstrate increased knowledge of basic splint applications and designs.
- Practice proper handling of splint material and splint procedures.
- Fabricate six splints during the workshop.

FINANCIAL DISCLOSURE
In accordance with the Accreditation Council for Continuing Medical Education’s Standards for Commercial Support, all CME providers are required to disclose to the activity audience the relevant financial relationships of the planners, teachers and authors involved in the development of CME content. An individual has a relevant financial relationship if he or she has a financial relationship in any amount occurring in the last 12 months with a commercial interest whose products or services are discussed in the CME activity content over which the individual has control.

It is the policy of Hospital for Special Surgery to request all financial relationships that Activity Directors, planning committee members, planners, authors and staff have with commercial interests, but to disclose to the activity audience only the relevant financial relationships.

SPECIAL NEEDS
Hospital for Special Surgery is accessible for individuals with disabilities or special needs. Participants with special needs are requested to contact the Office of Continuing Medical Education at 212.606.1812.
