

Adult Reconstructive and Joint Replacement Fellowship Research Projects

<p><u>2009-2010</u></p>	<p>The Validity of Using Self-Report as a Technique for Measuring Short Term Complications in a Total Joint Registry</p> <p>Autologous Blood Donation Prior to Primary Unilateral Total Knee Replacement Surgery</p> <p>The Accuracy of Intraoperative Histology: Do New Immunohistologic Staining Techniques Increase the Diagnostic Value?</p> <p>Utilizing Computerized Virtual Surgery to Assess the Impact of Acetabular Rim Osteophytes on the Range of Motion in Total Hip Arthroplasty</p>
<p><u>2010-2011</u></p>	<p>Safety and Efficacy of Multimodal Thromboprophylaxis following Elective Total Knee Arthroplasty. A Comparative Study with Selective vs. Routine Use of Coumadin for Chemoprophylaxis</p> <p>Comparative Polyethylene Insert Retrieval Analysis of Mobile- versus Fixed-Bearing Total Knee Arthroplasty</p> <p>Long-Term Survivorship and Wear Analysis in Young, Active Patients: A Matched Cohort Analysis of Ceramic and Metal on Polyethylene THA</p>
<p><u>2011- 0012</u></p>	<p>Tibiofemoral Contact Mechanics following Unicompartmental Knee Arthroplasty</p> <p>Tibial Post and Articular Surface Damage in Posterior-Stabilized Knee Replacements: Logic vs. Optetrak® PS</p> <p>Retrieval Analysis of the Mobile Meniscal Polyethylene Insert of the Oxford® Partial Knee</p> <p>Unexplained Pain in Failed Metal-on-Metal Hip Arthroplasty: A Retrieval, Histological and Imaging Analysis</p> <p>Patient Travel Distances for Total Knee Arthroplasty and Total Hip Arthroplasty in New York and California</p>
