| Hospital for Special Surgery | Phone Line | Base | Date | Elaboration | Elaboration

- Hospital for Special Surgery is the leading provider of comprehensive orthopedic care and education in the world.
- The goal of the service plan is to improve the health of the community by increasing access to care, reducing healthcare costs, and improving health outcomes.
- The service plan is based on the needs of the community and is developed through a participatory process involving community members, healthcare providers, and Hospital staff.

### Implementation

- **Implementation of Role(s)**
  - New and updated role(s) will be implemented in the next 12 months.
  - Roles will be evaluated regularly to ensure their effectiveness.

- **Strengths**
  - The Hospital has a strong track record of improving the health of the community.
  - The Hospital has a diverse and experienced workforce.

- **Challenges**
  - Limited funding for ongoing programs.
  - Lack of community partners willing to commit resources.

### Evaluation

- **Outcomes**
  - Improved access to care for low-income patients.
  - Increased community engagement in health improvement activities.

- **Factors**
  - Increase in participation in community health events.
  - Decrease in hospital readmissions.

### Opportunities

- **Policies**
  - Increased funding for ongoing programs.
  - New partnerships with community organizations.

- **Strategies**
  - Expand existing programs.
  - Develop new programs focused on specific community needs.

### Challenges

- **Barriers**
  - Limited resources for program development.
  - Difficulty in recruiting and retaining qualified staff.

- **Strategies**
  - Seek funding opportunities.
  - Expand partnerships with local businesses.

### Summary

- The service plan is a roadmap for improving the health of the community over the next 12 months.
- The plan is based on extensive community feedback and input from Hospital staff.
- The plan includes both short-term and long-term objectives.
