

# GlobalLink

Advancing musculoskeletal health around the world

Winter 2022

## Collaboration with Centro Hospitalario Serena del Mar

**A strategic collaboration between HSS and Centro Hospitalario Serena del Mar (CHSM) went into effect on September 1, 2021. CHSM is a medical center within the new, visionary city of Serena del Mar on the north coast of Cartagena, Colombia. CHSM is operated by Fundación Santa Fe de Bogotá (FSFB); its orthopedics department will be provided in collaboration with HSS.**

HSS is advising on musculoskeletal-related clinical services and facility design to maximize reliability and efficiency. This includes working with CHSM leadership to transfer specialist knowledge, training, and best practice protocols, and provide access to diagnostic support to help ensure the highest possible standards of quality for patients from Central and South America.

In collaboration with

# HSS Orthopedic Knowledge Exchange

Virtual academic collaborations through the HSS Orthopedic Knowledge Exchange have enabled us to continue to share our comprehensive knowledge and expertise in musculoskeletal care with institutions and individuals around the world.

## HSS-Charité International Spine Case Conference Series

Launched in July 2021, under the leadership of **Alexander P. Hughes, MD**, as a collaboration between HSS and Charité Universitätsmedizin in Berlin, the largest academic hospital in Germany, this accredited virtual conference focuses on providing a broader educational perspective on some of the challenging or controversial aspects of spine surgery.

As part of the HSS Orthopedic Knowledge Exchange Initiative, this quarterly series promotes knowledge exchange among HSS, Charité faculty, and colleagues around the world.

Working with Dr. Hughes as additional Chairs are **Dominik Adl Amini, MD** and **PD Dr. med. Matthias Pumberger, MD**.

The first webinar of the 2022 series was held on January 12, on the topic of lumbar total disk replacement. Additional dates will be announced.

## Collaboration with Maine Orthopaedic Review—Virtual Programming 2021

For the second consecutive year, HSS collaborated with Maine Orthopaedic Review (MOR) to host the Part I Review. MOR Part I is designed to meet the needs of the board candidate or practicing orthopedist via a thorough review of current orthopedic surgery. This includes lectures and an online comprehensive question bank. Participants increase their knowledge through daily lectures covering the breadth of orthopedics during the first week of the course.

The 2022 program will be held June 20–July 1, 2022 via livestream and onsite on the beautiful campus of Colby College in Waterville, Maine. For more information and to register, please visit [MaineOrthopaedic.com](http://MaineOrthopaedic.com).

## Latin America Regional Anesthesia Knowledge Exchange Program

The Latin America Regional Anesthesia Knowledge Exchange Program was formally launched in 2021 under the leadership of **Enrique Goytizolo, MD**. The observation program provides a unique opportunity for trainees from Latin America to gain valuable knowledge and experience through a structured three-week observation program with the department of Anesthesiology, Critical Care & Pain Management at HSS.

All alumni of the Latin America Regional Anesthesia Knowledge Exchange Program will gain lasting membership within the HSS community. Opportunities for continued involvement include:

- Participation in HSS educational programs in New York
- Continued engagement with HSS faculty and previous program participants
- Access to exclusive courses on HSS eAcademy®

For more information on this program, please visit [bit.ly/hss-la-reg-anesth-know-exchange](http://bit.ly/hss-la-reg-anesth-know-exchange).

## Ranawat Orthopaedic Conference 2021

The 19th Winter Meeting of the Ranawat Orthopaedic Conference (ROC), held on January 7 through January 9, kicked the new year off to a great start! The conference attracted a total of 397 registrants who participated over the course of the three-day program. Hosted by HSS Global Partnerships and the Ranawat Orthopaedic Research Foundation, Inc., the conference connected HSS faculty with Indian orthopedic professionals. HSS faculty and esteemed doctors from India provided lectures on techniques in joint replacement surgery and arthroscopy, with designated days for hip and knee topics and sports medicine.

The 2022 Ranawat Orthopaedic Conference was held virtually on January 20–22, 2022 and will be available to view on HSS eAcademy at [hss.edu/eAcademy](http://hss.edu/eAcademy).

## Educational Programming in China

For the second consecutive year, on November 18-19, 2021, HSS held a virtual symposium in partnership with **Peking University (PKU)** and **Peking Union Medical College Hospital (PUMCH)** in China. The event gathered top spine and arthroplasty surgeons from China and HSS to foster collaboration through knowledge exchange. **Over 17,000** viewers from around the world joined as participants to learn during this two-day knowledge exchange.

### HSS-PKU-PUMCH Spine Symposium November 18, 2021

This year marked the fifth year of the joint efforts among HSS, PKU Third Hospital, and PUMCH. The course, led by program directors **Han Jo Kim, MD, Weishi Li, MD, and Terry Jianguo Zhang, MD**, focused on approaches and considerations in spinal deformity. Four HSS faculty, **Todd J. Albert, MD, Han Jo Kim, MD, Sheeraz Qureshi, MD, MBA, and Evan D. Sheha, MD**, and 10 guest faculty provided cutting-edge knowledge and experience on thoracolumbar and cervical deformity, classification, and complications. In the meeting, four complex cases presented by guest faculty on *MIS vs. Open and Posterior Only vs. Combined Approach for Surgical Treatment of ACD* promoted intensive cloud discussions and debates, which further provided in-depth explanations and understanding of deformity.

### HSS-PKU-PUMCH Arthroplasty Symposium November 19, 2021

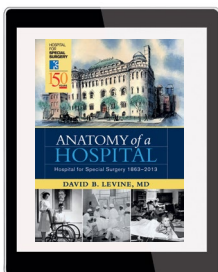

2021 marked the ninth year of the academic collaboration between partnerships among HSS, PKU People's Hospital, and PUMCH. The webinar was a collaboration between seven HSS faculty, **Mathias P.G. Bostrom, MD, Jason L. Blevins, MD, Elizabeth B. Gausden, MD, MPH, Seth A. Jerabek, MD, Daniel B. Maalouf, MD, MPH; Stavros G. Memtsoudis, MD, PhD, MBA; Peter K. Sculco, MD**, and 16 guest faculty from nine Chinese public hospitals located in Beijing, Shanghai, Chongqing, and Wuhan. Chaired by **Mathias P.G. Bostrom, MD, Jianhao Lin, MD, and Xisheng Weng, MD**, this year's webinar focused on *Implant Fixation, Surgical Approaches, and Bearings*.

Debates provided comprehensive comparisons of various surgical treatment options on the topics of *Cement vs. Cementless, Stem vs. No Stem, Cruciate Retaining Femur with Congruent Polyethylene vs. Posterior Stabilized vs. Condylar Constraint Knee, Direct Anterior vs. Posterior Approach, and Large Head vs. Dual Mobility*.

The webinar also introduced a session with anesthesiology experts about perioperative care to foster the highest quality of musculoskeletal care.

## New Formats Launched for Anatomy of a Hospital

**Anatomy of a Hospital—Hospital for Special Surgery 1863–2013 by Dr. David B. Levine is now available for purchase in ebook and softcover formats on amazon.com.** The book is a chronological history of the oldest orthopaedic hospital in the nation, opening in the middle of the Civil War

as the Hospital for the Ruptured and Crippled on the lower east side of New York City. With more than 150 photographs, the book chronicles the hospital's beginnings in a doctor's home to help destitute children with disabilities to the premier institution that Hospital for Special Surgery has become today.

Chapters were generously contributed by HSS staff **Helene Pavlov, MD, Adele Boskey, PhD, Gregory Liguori, MD, Mary Hargett, Charles Christian, MD, Stephen Paget, MD, Louis Shapiro, and Thomas Sculco, MD.**

### Primary Features of New eBook Format

- Easy-to-use links to references and notes
- Searchable terms
- Portable reading
- Customizable font size

## HSS Journal® Indexed in Clarivate Analytics Web of Science

The Editorial Board of *HSS Journal: The Musculoskeletal Journal of Hospital for Special Surgery* and HSS are excited to announce that *HSS Journal* has been accepted into Science Citation Index Expanded (SCIE), and Clarivate has begun indexing the journal in Web of Science. The journal will receive an impact factor in June 2022.

This milestone reflects the high quality of manuscripts submitted and the journal's rigorous peer-review and editorial processes. Editor-in-Chief **Charles N. Cornell, MD**, acknowledges the reviewers and authors who have contributed to the journal's success since its launch in 2005 (and published by SAGE beginning in 2021).

"This is welcome news—not just for our journal but for everyone dedicated to innovation in musculoskeletal health," Dr. Cornell said. "By publishing their work in *HSS Journal*, our contributors will now have an even greater impact on the literature in our field."

*HSS Journal* features original research, review articles, and case reports on musculoskeletal conditions, their diagnosis, and their treatment. Articles from professionals in fields relevant to musculoskeletal health are encouraged: orthopaedics, anesthesia, perioperative medicine, radiology, rehabilitation, rheumatology, and musculoskeletal nursing, among others.

The journal welcomes submissions from clinicians around the world at the online submission portal at SAGE Track:

[mc.manuscriptcentral.com/hss](https://mc.manuscriptcentral.com/hss).

*HSS Journal* also offers a variety of journal-based continuing education activities providing *AMA PRA Category 1 Credits*™. Visit the journal online at [journals.sagepub.com/home/HSS](https://journals.sagepub.com/home/HSS).

## HSS Global is pleased to announce new musculoskeletal content available online through HSS eAcademy®.

### Featured On-Demand Global Content

Recently launched! You now have access to the following special content:

- Orthopaedic Surgery and Procedural Videos
- Ranawat Orthopaedic Conference 2021
- HSS-PKU-PUMCH Arthroplasty & Spine Symposium 2021
- HSS-Charité International Spine Case Conferences

### Become an Alliance Member

HSS Global aligns with leading orthopedic care providers to advance the delivery of musculoskeletal care. If you are interested in transforming your current program or are interested in learning more about the HSS Global Orthopedic Alliance, please contact us. We assess prospective partners through a standard process that allows us to learn more about an organization and its goals, with the aim of mutually improving orthopedic care. For more information, visit [hss.edu/global](https://hss.edu/global).

### More Continuing Education Opportunities

At your convenience, you can access additional content anytime, anywhere, including:

- CME accredited
- More than 500 educational offerings
- Taught by world-renowned HSS faculty
- Multi-disciplinary courses
- Orthopedic Surgical and Procedural Video Library
- Test Your Knowledge
- Grand Rounds from HSS—Management of Complex Cases
- *HSS Journal*® articles
- RheumLink™ and RehabLink newsletters
- Free and low-cost options
