

We Are Asking New Questions

During registration, our staff will be collecting new information about race, ethnicity and your preferred language. In order to ensure high quality care for all our patients, we will be asking these questions:

- Would you describe yourself as Hispanic or Latino?
- Would you describe your race as American Indian/ Alaska Native, Asian, Black or African American, Native Hawaiian/ Other Pacific Islander, White, or Some Other Race?
- How would you describe your ethnic background?
- What is your preferred language for discussing health care?

Our goal in collecting this new information is to:

- Review the treatment that all patients receive to ensure the highest quality of care is provided
- Educate our staff about the diverse needs of our patients
- Improve the care and services our hospital provides to our community

We will use this information to continuously improve the quality of care for all our patients. Thank you for your assistance.
