Assistant Attending Physician, Hospital for Special Surgery
Assistant Professor of Medicine, Weill Cornell Medical College

*Don't miss this important SLE
Workshop!*

Many people with lupus have an interest in knowing the current and future developments that may help them to manage their disease. You want up-to-date information about the current and future state of lupus medications and management, and with our next workshop we have HSS experts to share it with you!

HSS physicians Doruk Erkan, MD and Kyriakos Kiriou, MD, FACR, will present on key topics related to current lupus management, with a focus on:

current medications for lupus and lupus kidney disease; potential future medications for lupus and lupus kidney disease; and current and future management of Antiphospholipid Syndrome.

Dr. Erkan and Dr. Kirou are Co-Clinical Directors of the *Mary Kirkland Center For Lupus Care*, in addition to being Assistant Attending Physicians in the Rheumatology Division of HSS.

After the presentation we'll have an informal group discussion where members can share their thoughts and experiences regarding this essential topic, as well as an open discussion.

Please contact Steve Rudolf at 212.774.7654 with your name and phone number to register for the workshop prior to joining us. We look forward to seeing you on April 28th!

PLEASE NOTE SCHEDULE: The SLE Workshop is generally offered the **4th Thursday of each month from 12:00-2:00 p.m.** Guest presentations are followed by informal discussion.

PLEASE CALL TO ATTEND: To attend the workshop or for additional information, **please call Steve Rudolf, Workshop Coordinator at (212) 774-7654** and leave a message with your name and phone number.

The SLE Workshop is a program of Hospital for Special Surgery's Department of Social Work Programs. Summaries of selected programs are available on our Hospital's website at www.hss.edu/SLEWorkshop.
